

Private Lesson Questionnaire

Please PRINT legibly. (Rev. 09102016)

This is a very detailed questionnaire. The more information you can provide prior to the lesson the better able we are to help you. This form is available on our website where you can type in your answers and save the document. You can then print it, email it, etc. Being able to review your background information in advance allows us to focus on problem solving and training during the time we spend together. Please bring something to take notes as you'll be given homework assignments. You'll be asked to follow up with a progress report after the lesson.

SCHEDULING YOUR PRIVATE LESSON, THE COST, ETC.:
At this time we are only doing in-facility private lessons. We find that lessons done away from the dog's home (in our facility) are actually more effective than n-home lessons. (If we find that an in-home or field-trip lesson is a beneficial next step, we will talk to you about that when we meet with you.)
The cost for an in-facility private lesson \$125. Payment will be due at the time of the lesson. We accept cash, checks, Visa, MasterCard and Discover.
The average private lesson lasts approximately one hour. Our staff spends time prior to the lesson reviewing your background information and performing any necessary research. After the private lesson your will be given homework. Your instructor will follow up with you via email after he or she receives you nomework. This follow-up will make sure you're on track and seeing the progress that your instructor anticipated.
After we receive and review your Private Lesson Questionnaire we will contact you to arrange the lesson and tell you who you will be meeting with.
Please give us an idea of your schedule and availability to meet with us. What are the best day(s) and time(s) for you? (Give us several to choose from.)

In order to help you and your dog accomplish your goals, the instructor will need to have a thorough understanding of your dog's behavior, exercise, nutrition nealth problems and your family's lifestyle. We believe there are many factors that can influence a dog's behavior and obedience and the more information you can supply, the more completely we can help with your dog's training. Attach additional pages to this form if necessary. If possible, the entire family should attend the private lesson and assist with the completion of this questionnaire. When that is not possible, let us know and we may be able to video tagging the lesson (and you are welcome to bring your own video camera).
Please be prepared to take notes during your lesson. Your instructor will bring you printed reference material and handouts, but most people find it helpful take notes as a lot of information will be covered in a relatively short period of time.
A private lesson is similar to a doctor's prescription. Your instructor will give you specific instructions to achieve your goals; however, it is up to you and you family to follow through with any prescribed training, behavior modification, exercise and lifestyle changes.
Please contact us if you have questions. If you need to reschedule or cancel this private lesson, please give us 24 hours advance notice.
PLEASE READ & SIGN THE FOLLOWING PRIVATE LESSON AGREEMENT:
I understand that private lessons must be cancelled a minimum of 24 hours in advance or I will be charged the full amount of the scheduled lesson. Returned or NSF checks are subject to a \$30 bank processing fee. Declined credit cards are subject to a \$30 late payment fee.
